Benefits Conditions for Hospital and Surgical Benefits

- Change of Benefits: If an Insured is afflicted with a Disability prior to the benefit upgrade, the Insured shall only be entitled to the benefit level in-force at the time when the Disability commences. However, if the benefit upgrade has been in force for 365 days when the Insured receives medical treatment for a Disability that precedes the benefit upgrade, the Insured shall be entitled to the benefit level after the benefit upgrade. Nevertheless, if the Insured is Confined in a Hospital at the time when the benefit upgrade first takes effect ("the Current Confinement"), the benefit upgrade will have no application to the Current Confinement and will only take effect after the Insured is discharged from the Current Confinement. [If applicable.]
- Physician's Hospital Visits - Include one pre-hospitalisation/pre-surgical clinic consultation and all necessary follow up consultations up to a maximum of 6 week(s) after discharge from the Hospital or Day Case Procedure provided that the consultations are directly related to and as a result of the diagnosis necessitating such Confinement, surgical procedures or operations, and are rendered by the attending Registered Medical Practitioner or other Registered Medical Practitioners practising in the same clinic of the Registered Medical Practitioner.
